SUMMARY

Aspiring AI and Data Science undergraduate with strong foundations in Data Structures and Algorithms, and a keen interest in full-stack web development, machine learning, and data science. Experienced in building efficient, maintainable code and eager to contribute to impactful real-world projects.

EDUCATION

- **B.Tech in Artificial Intelligence and Data Science:** Shiv Nadar University, Chennai Aug 2023 – Present
CGPA: 8.36 (as of 6th Semester)
- **Class XII - CBSE:** Kamala Niketan Montessori School, Tiruchirappalli 2022 – 2023
Percentage: 86.6%

EXPERIENCE

- **Software Development Intern – Inditech Health Solutions:** Feb 2026 – Present
WordPress, PHP, APIs, Database Systems, Git
 - Contributed to the development of three production web platforms and currently own their maintenance, feature development, and ongoing enhancements, supporting thousands of healthcare professionals.
 - Built and maintained scalable application workflows for webinar ecosystems for doctors, including user onboarding, communication pipelines, participation tracking, and feedback systems.
 - Collaborated across teams to translate business requirements into reliable and maintainable technical solutions.
 - Worked with WordPress, PHP, APIs, database systems, and Git to build and enhance production applications.
 - Demonstrated ownership in product development, project coordination, system design, and problem-solving in a fast-paced development environment.

PROJECTS

- **Full-Stack Job Portal Website (MERN Stack):** Nov 2025 – Jan 2026
React.js, Node.js, Express.js, MongoDB, Clerk, Sentry, Vercel
 - Built a MERN-based job portal with job search, applications, and resume upload.
 - Implemented role-based authentication and recruiter dashboard for job management.
 - Integrated Sentry for error tracking, performance monitoring, and deployed on Vercel.
- **Full-Stack E-commerce Website (MERN Stack):** Nov 2025 – Dec 2025
React.js, Node.js, Express.js, MongoDB
 - Built a MERN-based e-commerce platform with user authentication, product listings, and cart management.
 - Developed RESTful APIs and MongoDB schemas for product, user, and cart operations.
 - Implemented an admin panel for real-time inventory management.
- **Movie Recommendation System:** Sep 2025 – Sep 2025
Python, Pandas, NumPy, Scikit-learn, Streamlit
 - Built a content-based movie recommendation system using the TMDb dataset.
 - Used TF-IDF / CountVectorizer and cosine similarity for top-N movie recommendations.
 - Developed a Streamlit web app for interactive, real-time recommendations.
 - Emphasized efficient data preprocessing and vectorization pipelines.
- **CS Fundamentals Chatbot AI:** Dec 2025 – Dec 2025
Python, LLM API, JSON, Streamlit, Hugging Face Spaces
 - Built an AI-powered chatbot to answer and explain CS fundamentals MCQs (DSA, OS, DBMS, CN).

- Integrated quiz mode with topic-wise questions, scoring, and AI-generated explanations.
 - Designed an interactive Streamlit UI with chat bubbles, sidebar topic selection, and score cards.
 - Deployed the application on Hugging Face Spaces with secure API key management.
- **FractureDetect – Bone Fracture Detection using Image Analysis:** Mar 2025 – Apr 2025
Python, NumPy, Matplotlib, Custom Image Processing Algorithms
- Developed a full pipeline for detecting bone fractures from X-ray images without using OpenCV or ML libraries.
 - Implemented grayscale conversion, resizing, blurring, histogram features, and custom edge detection.
 - Designed a similarity-based classification method between “Fractured” and “Normal” images.
- **Game Library Management System:** Feb 2025 – Apr 2025
HTML, CSS, JavaScript, Node.js, Express, MySQL
- Built an Internet Game Management System with secure backend and MySQL integration.
 - Enabled wishlist functionality and keyword-based game search across multiple platforms.

SKILLS

- **Programming Languages:** C++, Java, Python, C
- **Web Technologies:** HTML, CSS, JavaScript, Node.js, Express.js, React, MySQL, MongoDB
- **Frameworks & Libraries:** OpenCV, Scikit-learn, Pandas, NumPy
- **AI/ML/Data Science:** Machine Learning, Deep Learning, Data Mining, EDA, Data Visualization

ACHIEVEMENTS

- **Competitive Programming:** Solved 500+ problems across [LeetCode](#), HackerRank, and Codeforces
- **Pragyan Hackathon 2024:** Qualified for Final Round among 100+ national teams
- **HCL GUVI Coding Contest:** Secured AIR 9 among 5000+ total participants

CERTIFICATIONS

- **Affective Computing – NPTEL:** Gold+Elite Certificate Score: 90%
- **Responsible and Safe AI Systems – NPTEL:** Top 1% Nationwide Score: 90%
- **Complete Full Stack Web Development Bootcamp – Udemy:** PERN Stack Development Completed 2025

LANGUAGES

Native: Tamil

Professional Working Proficiency: English, Hindi
